Tipi tents from Canvas & Wood are truly unique with nothing like them in the region. Our tents are atmospheric and flexible meaning they work perfectly for all kinds of events.
Why are we unique?

There are several reasons why the tipi tents from Wood & Canvas are special.

Unique. There is nothing else like our fantastic tipi tents anywhere in the Middle East, so if you are looking for something a little bit different you are in the right place.

Flexible. Canvas & Wood offer refreshing and flexible event spaces. Clients use our tipi tents for everything from large public events to end of year parties. The tents are frequently used for corporate events and exhibitions too.

Atmospheric. The tipi tents offer a very distinctive atmosphere compared to more common marquee structures. We like it and think you will too.

Versatile. Did you look at the gallery yet? We are proud of how versatile the tents are. If you just need one tipi tent that’s fine with us. If you need five tents linked together to give a few different areas for a corporate event, that’s fine too.

Efficient. A complex arrangement of tipi tents can be setup in one day. With popular event spaces in high demand, this is a big advantage over a traditional marquee.

Put all of these reasons together and you have something truly unique and exciting. (We could give another 50 reasons but we know you’re hooked already!)
Wood.
Wood may seem a bit “low tech” to some. You would be surprised how strong and light the timber is that we use to erect the tipi tents.

The wood used for our poles is not picked at random; it’s carefully selected from late-maturing, de-barked spruce. Some of the chosen trees are up to 150 years old. This selection process ensures the poles are extremely strong and long lasting.

Canvas.
Canvas has been used in different forms for around 3500 years for everything from birchbark canoes to Picasso’s oil paintings.

We use modern canvas, which is flame-retardant and made from a blend of cotton and synthetic fiber. This makes it the perfect material for our tipi tents, as it is both practical and nice to look at.
We guessed you would have some questions and have tried to guess what they would be.

**What is the capacity of each tent?**
We can comfortably seat 72 guests and accommodate 100 standing guests in one tipi tent. We can join any number of tents together giving lots of different options. Just let us know your requirements and we can help with floor plans to show you what is possible.

**How much space do the tipi tents need?**
For each tipi tent we require a level area measuring 14 meters in diameter. Normally a quick site visit is needed to make sure the proposed location is suitable and that access is possible.

**Can you supply toilets?**
Sure thing! Based on the number of anticipated guests we can propose a suitable toilet solution.

**Can you help with power supply?**
If your event is taking place in a location with no direct power supply we can bring in a generator.

**Do the tipi tents need cooling?**
It really depends on the time of year and the nature of your event. We can install air conditioning in the warmer months to make your guests more comfortable.

**Are the tipi tents flame resistant?**
Yes – all of our tents have been specially treated to make them flame resistant. Ask us if you need more details on this.

Size: 17m x 47.9m (sides down) 19.8m x 50.4m (sides up)
Capacity: 224 seated
We know that having an amazing looking tent is not where the story ends. That’s why we have thought long and hard about how we can make the interiors as memorable as the exterior.

**Furniture.**
On a basic level we can help with furniture. We stock items such as cocktail tables, dining tables, and lounge seating. We have many other items designed to work well in the tipi tents too. Some setups require customized soft furnishing to fit with a corporate identity or theme, this is our kind of thing and we are on hand to help.

**Audio Visual.**
Many of our events require a sophisticated AV setup for speeches and presentations. From much experience we can advise you on what works well in this unique atmosphere.

**Flooring.**
Durable matt flooring is often the first choice for our clients. It is very hard wearing and quick to install meaning you don’t have to worry about it. Depending on the location a hard floor may be more suitable. We also stock a hard flooring solution, which we can provide for your event.

**Open Fires.**
In keeping with the tipi tents ambience an open fire adds a great centre point to an event. Our fire places are timber framed with a sheet metal firebox that sits on top so that the base of the fire is at hip height. Maybe an ice sculpture is more suitable in the summer though.

**Finishing Touches.**
Attention to small detail is important to us. Finishing touches to décor make a big impact. We stock many items that work well for different types of event. Just let us know the feel you are going for so we can help out.
Feel free to get in touch if you have any questions on our services.
